SUMMARY

Experienced business professional with a background in strategic partnerships, technology, and business development. Skilled in building industry relationships, connecting organizations with new opportunities, and developing programs that bring business and innovation together.

EDUCATION

University of North Texas - G. Brint Ryan College of Business - MBA (December 2026 - Expected)
University of North Texas - Bachelor of Arts in Radio, Television and Film (Minor - Anthropology)

CURRENT EXPERIENCE

Graduate Assistant (Programs and Partnerships) – Sports Innovation Space @ UNT
Frisco, TX | Aug 2025 – Present

- Helped launch and manage a university-affiliated sports tech innovation platform connecting international startups with industry executives, faculty, students, and strategic partners.
- Support member engagement and relationship management for international sports technology companies entering and expanding within the U.S. market.
- Coordinate executive-facing programming, industry events, and stakeholder communications, including newsletters, presentations, and outreach materials.
- Collaborate with startup founders and university leadership to identify market opportunities, refine business development strategies, and facilitate industry connections.
- Support the planning and execution of innovation summits and professional networking events that bring together technology companies, researchers, and industry leaders.

Brand Partnerships Coordinator (Intern) - Don't Tell Comedy (www.donttellcomedy.com)
Los Angeles, CA | Aug 2026 - Present

- Develop regional corporate partnership pipelines, identifying and engaging prospective brand partners across key major markets.
- Research industry trends, organizational priorities, and decision-makers to identify strategic partnership opportunities and strengthen outreach.
- Support partnership strategy, proposal development, and activation planning to align corporate objectives with organizational programming.

SELECTED PROFESSIONAL ACHIEVEMENTS

- Helped establish SIS@UNT, supporting international tech startups entering the U.S. market.
- Generated $12M+ in career recruiting revenue
- Co-developed an agentic AI application through the 2026 Dallas AI Summer Program
- Developed emerging technology talent programs across multiple fortune 500 companies
